***We hereby submit specifications as follows:***

Here you can see this section of the roofing is higher than the other section and this is because a ridge vent has been installed.

Same thing here.

All the other buildings in the neighborhood have the ridge vent as well.

**Roof Inspection Fee**

**\$ 125.00**

**Note: The roof appeared to be in good condition. The areas mentioned by the underwriter are designed to be higher to allow for ventilation.**
